## About DGR Global Limited

DGR Global's business is the creation of resource exploration development and mining companies. The business uses the skills of a core team of talented geoscientists to identify resource projects capable of yielding world class discoveries of attractive commodities.

This is achieved through:

- The identification of commodities with a favourable 20-year price outlook
- Geological terranes with:
  - A demonstrated strong endowment for that commodity.
  - An under-explored history.
  - Opportunity for the application of recently developed exploration techniques.
  - Jurisdictions with improving socio-economic and regulatory frameworks.
  - Extensive available tenures.
- A revision of the crushing and milling strategy to increase throughput and reduce Capital and operating costs,

DGR provides initial seed funding and management support to secure assets in subsidiaries and develop these assets to more advanced funding stages. The Company has a pipeline of projects in daughter companies at various stages of emergence, and in 2015 crystallised a significant return through the sale of its 15% holding in Orbis Gold for \$26million. Further development of its holdings in LSE and TSX-listed SolGold, ASX-listed Clara Resources, New Peak Metals, Armour Energy, and unlisted Auburn Resources and Armour Energy Uganda, are expected over the coming years.
