[Table of Contents](#)**NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****1. Description of Business, Basis of Presentation****(a) Description of the Business**

Coronado Global Resources Inc. is a global producer, marketer, and exporter of a full range of metallurgical coals, an essential element in the production of steel. The Company has a portfolio of operating mines and development projects in Queensland, Australia, and in the states of Pennsylvania, Virginia and West Virginia in the United States, or U.S.

(b) Basis of Presentation

The interim unaudited condensed consolidated financial statements have been prepared in accordance with the requirements of U.S. generally accepted accounting principles, or U.S. GAAP, and with the instructions to Form 10-Q and Article 10 of Regulation S-X related to interim financial reporting issued by the Securities and Exchange Commission, or the SEC. Accordingly, they do not include all of the information and footnotes required by U.S. GAAP for complete financial statements and should be read in conjunction with the audited consolidated financial statements and notes thereto included in the Company's Annual Report on Form 10-K filed with the SEC and the Australian Securities Exchange, or the ASX, on February 21, 2023.

The interim unaudited condensed consolidated financial statements are presented in U.S. dollars, unless otherwise stated. They include the accounts of Coronado Global Resources Inc. and its wholly-owned subsidiaries. References to "US\$" or "USD" are references to U.S. dollars. References to "A\$" or "AUD" are references to Australian dollars, the lawful currency of the Commonwealth of Australia. The "Company" and "Coronado" are used interchangeably to refer to Coronado Global Resources Inc. and its subsidiaries, collectively, or to Coronado Global Resources Inc., as appropriate to the context. All intercompany balances and transactions have been eliminated upon consolidation.

In the opinion of management, these interim financial statements reflect all normal, recurring adjustments necessary for the fair presentation of the Company's financial position, results of operations, comprehensive income, cash flows and changes in equity for the periods presented. Balance sheet information presented herein as of December 31, 2022 has been derived from the Company's audited consolidated balance sheet at that date. The Company's results of operations for the three and six months ended June 30, 2023 are not necessarily indicative of the results that may be expected for the year ending December 31, 2023.

2. Summary of Significant Accounting Policies

Please see Note 2 "Summary of Significant Accounting Policies" contained in the audited consolidated financial statements for the year ended December 31, 2022 included in Coronado Global Resources Inc.'s Annual Report on Form 10-K filed with the SEC and ASX on February 21, 2023.

(a) Newly Adopted Accounting Standards

During the period, there has been no new Accounting Standards Update issued by the Financial Accounting Standards Board that had a material impact on the Company's consolidated financial statements.

3. Segment Information

The Company has a portfolio of operating mines and development projects in Queensland, Australia, and in the states of Pennsylvania, Virginia and West Virginia in the U.S. The operations in Australia, or Australian Operations, comprise the 100%-owned Curragh producing mine complex. The operations in the United States, or U.S. Operations, comprise two 100%-owned producing mine complexes (Buchanan and Logan), one 100%-owned idled mine complex (Greenbrier) and two development properties (Mon Valley and Russell County).

The Company operates its business along two reportable segments: Australia and the United States. The organization of the two reportable segments reflects how the Company's chief operating decision maker, or CODM, manages and allocates resources to the various components of the Company's business.

The CODM uses Adjusted EBITDA as the primary metric to measure each segment's operating performance. Adjusted EBITDA is not a measure of financial performance in accordance with U.S. GAAP. Investors should be aware that the Company's presentation of Adjusted EBITDA may not be comparable to similarly titled financial measures used by other companies.

[Table of Contents](#)**NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

Adjusted EBITDA is defined as earnings before interest, taxes, depreciation, depletion and amortization and other foreign exchange losses. Adjusted EBITDA is also adjusted for certain discrete items that management exclude in analyzing each of the Company's segments' operating performance. "Other and corporate" relates to additional financial information for the corporate function such as accounting, treasury, legal, human resources, compliance, and tax. As such, the corporate function is not determined to be a reportable segment but is discretely disclosed for purposes of reconciliation to the Company's unaudited Condensed Consolidated Financial Statements.

Reportable segment results as of and for the three and six months ended June 30, 2023 and 2022 are presented below:

During the fourth quarter of 2020, the Company committed to a plan to sell the Greenbrier mining asset and determined that all of the criteria to classify assets and liabilities as held for sale were met. The asset is part of our U.S. segment, located in the State of Virginia in the United States. The Greenbrier asset does not form part of the Company's core business strategy and has been idle since April 1, 2020.

The Company remains committed to a plan to sell the asset, however, on March 31, 2023, the Company concluded that the timing of the sale within the next twelve months is uncertain. As such, the Greenbrier mining asset has been reclassified as held and used since March 31, 2023, as it does not meet the criteria for classification as held for sale.

The Greenbrier mining asset remains idle and the Company does not intend to recommence operations at the mine.

The assets and liabilities of Greenbrier met the criteria for classification as held for sale as of December 31, 2022, therefore the Condensed Consolidated Balance Sheet continues to reflect these assets and liabilities as held for sale as of that date.

8. Leases

From time to time, the Company enters into mining services contracts, which may include embedded leases of mining equipment and other contractual agreements to lease mining equipment and facilities. Based upon the Company's assessment of the terms of a specific lease agreement, the Company classifies a lease as either finance or operating.

During the three months period ended June 30, 2023, the Company entered into a number of agreements to lease mining equipment. At commencement of these agreements, the Company recognized right-of-use assets and operating lease liabilities of \$37.6 million.

Information related to the Company's right-of use assets and related lease liabilities are as follows:

Senior Secured Notes

As of June 30, 2023, the Company's aggregate principal amount of the 10.750% Senior Secured Notes due 2026, or the Notes, outstanding was \$242.3 million. The Notes mature on May 15, 2026 and are senior secured obligations of the Company.

The terms of the Notes are governed by an indenture, dated as of May 12, 2021, or the Indenture, among Coronado Finance Pty Ltd, an Australian proprietary company, as issuer, Coronado, as parent guarantor, the other guarantors party thereto and Wilmington Trust, National Association, as trustee. The Indenture contains customary covenants for high yield bonds, including, but not limited to, limitations on investments, liens, indebtedness, asset sales, transactions with affiliates and restricted payments, including payment of dividends on capital stock. As of June 30, 2023, the Company was in compliance with all applicable covenants under the Indenture.

The carrying value of debt issuance costs, recorded as a direct deduction from the face amount of the Notes, were \$8.2 million and \$9.4 million at June 30, 2023 and December 31, 2022, respectively.

[Table of Contents](#)**NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****ABL Facility**

On May 12, 2021, the Company entered into a senior secured asset-based revolving credit agreement providing for a multi-currency asset-based-loan facility, or ABL Facility, in an initial principal amount of \$ 100.0 million, including a \$30.0 million sublimit for the issuance of letters of credit and \$5.0 million for swingline loans, at any time outstanding, subject to borrowing base availability. The ABL Facility matures on May 12, 2024.

Borrowings under the ABL Facility bear interest at a rate equal to a Bank Bill Swap Bid, or BBSY, rate plus an applicable margin. In addition to paying interest on the outstanding borrowings under the ABL Facility, the Company is also required to pay a fee in respect of unutilized commitments, on amounts available to be drawn under outstanding letters of credit and certain administrative fees.

As at June 30, 2023, no amounts were drawn and no letters of credit were outstanding under the ABL Facility. As at June 30, 2023, the Company was in compliance with all applicable covenants under the ABL Facility.

The carrying value of debt issuance costs, recorded as "Other non-current assets" in the unaudited Consolidated Balance Sheets, were \$1.5 million and \$2.5 million at June 30, 2023 and December 31, 2022, respectively.

Subsequent to June 30, 2023, the Company satisfied all conditions precedent under a New ABL Facility at which time the New ABL Facility replaced the existing ABL Facility. Refer to Note 16. Material Transactions for further details.

10. Income Taxes

For the six months ended June 30, 2023 and 2022, the Company estimated its annual effective tax rate and applied this effective tax rate to its year-to-date pretax income at the end of the interim reporting period. The tax effects of unusual or infrequently occurring items, including effects of changes in tax laws or rates and changes in judgment about the realizability of deferred tax assets, are reported in the interim period in which they occur. The Company's 2023 estimated annual effective tax rate is 21.9%, which has been favorably impacted by mine depletion deductions in the United States. The Company had an income tax expense of \$56.0 million based on an income before tax of \$255.2 million for the six months ended June 30, 2023.

Income tax expense of \$184.0 million for the six months ended June 30, 2022 was calculated based on an estimated annual effective tax rate of 24.7% for the period.

The Company utilizes the "more likely than not" standard in recognizing a tax benefit in its financial statements. For the six months ended June 30, 2023, the Company had no unrecognized tax benefits. If accrual for interest or penalties is required, it is the Company's policy to include these as a component of income tax expense.

The Company is subject to taxation in the U.S. and its various states, as well as Australia and its various localities. In the U.S. and Australia, the first tax return was lodged for the year ended December 31, 2018. In the U.S., companies are subject to open tax audits for a period of seven years at the federal level and five years at the state level. In Australia, companies are subject to open tax audits for a period of four years from the date of assessment.

The Company assessed the need for valuation allowances by evaluating future taxable income, available for tax strategies and the reversal of temporary tax differences.

The Company's common stock is publicly traded on the ASX in the form of CDIs, convertible at the option of the holders into shares of the Company's common stock on a 10-for-1 basis.

12. Fair Value Measurement

The fair value of a financial instrument is the amount that will be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair values of financial instruments involve uncertainty and cannot be determined with precision.

The Company utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs to the extent possible. The Company determines fair value based on assumptions that market participants would use in pricing an asset or liability in the market. When considering market participant assumptions in fair value measurements, the following fair value hierarchy distinguishes between observable and unobservable inputs, which are categorized in one of the following levels:

Level 1 Inputs: Unadjusted quoted prices in active markets for identical assets or liabilities accessible to the reporting entity at the measurement date.

Level 2 Inputs: Other than quoted prices that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the asset or liability.

Level 3 Inputs: Unobservable inputs for the asset or liability used to measure fair value to the extent that observable inputs are not available, thereby allowing for situations in which there is little, if any, market activity for the asset or liability at measurement date.

[Table of Contents](#)**NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****Financial Instruments Measured on a Recurring Basis**

As of June 30, 2023, there were no financial instruments required to be measured at fair value on a recurring basis.

Other Financial Instruments

The following methods and assumptions are used to estimate the fair value of other financial instruments as of June 30, 2023 and December 31, 2022:

- Cash and restricted cash, accounts receivable, accounts payable, accrued expenses, lease liabilities and other current financial liabilities: The carrying amounts reported in the unaudited Condensed Consolidated Balance Sheets approximate fair value due to the short maturity of these instruments.
- Restricted deposits, lease liabilities, interest bearing liabilities and other financial liabilities: The fair values approximate the carrying values reported in the unaudited Condensed Consolidated Balance Sheets.
- Interest bearing liabilities: The Company's outstanding interest-bearing liabilities are carried at amortized cost. As of June 30, 2023, there were no borrowings outstanding under the ABL Facility. The estimated fair value of the Notes as of June 30, 2023 was approximately \$251.7 million based upon quoted market prices in a market that is not considered active (Level 2).

13. Accumulated Other Comprehensive Losses

The Company's Accumulated Other Comprehensive Losses consists of foreign currency translation adjustment of subsidiaries for which the functional currency is different of the Group's functional currency in U.S. dollar.

Accumulated other comprehensive losses consisted of the following at June 30, 2023:

| (in US\$ thousands) | Foreign currency translation adjustments |
|--|---|
| Balance at December 31, 2022 | \$ (91,423) |
| Net current-period other comprehensive income (loss): | |

| 2026 | 5,113 |
| 2027 | 5,087 |
| Thereafter | 25,834 |
| Total | \$ 50,267 |

Mineral leases are not in scope of Accounting Standards Codification, or ASC, 842 and continue to be accounted for under the guidance in ASC 932, Extractive Activities – Mining.

(b) Other commitments

As of June 30, 2023, purchase commitments for capital expenditures were \$32.5 million, all of which is obligated within the next twelve months.

In Australia, the Company has generally secured the ability to transport coal through rail contracts and coal export terminal contracts that are primarily funded through take-or-pay arrangements with terms ranging up to 13 years. In the U.S., the Company typically negotiates its rail and coal terminal access on an annual basis. As of June 30, 2023, these Australian and U.S. commitments under take-or-pay arrangements totaled \$0.9 billion, of which approximately \$95.0 million is obligated within the next twelve months.

15. Contingencies

In the normal course of business, the Company is a party to certain guarantees and financial instruments with off-balance sheet risk, such as letters of credit and performance or surety bonds. No liabilities related to these arrangements are reflected in the Company's unaudited Condensed Consolidated Balance Sheets. Management does not expect any material losses to result from these guarantees or off-balance sheet financial instruments.

As required by certain agreements, the Company had cash collateral in the form of deposits in the amount of \$89.5 million and \$89.1 million as of June 30, 2023 and December 31, 2022, respectively, to provide back-to-back support for bank guarantees, financial payments, other performance obligations, various other operating agreements and contractual obligations under workers compensation insurance. These deposits are restricted and classified as long-term assets in the unaudited Condensed Consolidated Balance Sheets.

In accordance with the terms of the ABL Facility, the Company may be required to cash collateralize the ABL Facility to the extent of outstanding letters of credit after the expiration or termination date of such letter of credit. As of June 30, 2023, no letter of credit was outstanding and no cash collateral was required.

For the U.S. Operations in order to provide the required financial assurance, the Company generally uses surety bonds for post-mining reclamation. The Company can also use bank letters of credit to collateralize certain obligations. As of June 30, 2023, the Company had outstanding surety bonds of \$40.8 million and letters of credit of \$16.8 million issued from our available bank guarantees, to meet contractual obligations under workers compensation insurance and to secure other obligations and commitments.

For the Australian Operations, the Company had bank guarantees outstanding of \$24.2 million at June 30, 2023, primarily in respect of certain rail and port arrangements of the Company.

As at June 30, 2023, the Company had total outstanding bank guarantees provided of \$41.0 million to secure obligations and commitments. Future regulatory changes relating to these obligations could result in increased obligations, additional costs or additional collateral requirements.

[Table of Contents](#)**NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)***Stamp duty on Curragh acquisition*

On September 27, 2022, the Company received from the Queensland Revenue Office, or QRO, an assessment of the stamp duty payable on its acquisition of the Curragh mine in March 2018. The QRO assessed the stamp duty on this acquisition at an amount of \$54.5 million (A\$82.2 million) plus unpaid tax interest of \$8.0 million (A\$12.1 million). On November 23, 2022, the Company filed an objection to the assessment and is currently awaiting the outcome of this objection. The outcome of this objection remains uncertain.

The Company continues to maintain its position and the estimated accrual of \$28.5 million (A\$43.0 million) stamp duty payable on the Curragh acquisition based on legal and valuation advice obtained. The Company made a partial payment following filing of the objection reducing the estimated accrual to \$11.5 million (A\$17.3 million), which is included within "Accrued Expenses and Other Current Liabilities" in its unaudited Condensed Consolidated Balance sheet, as at June 30, 2023.

From time to time, the Company becomes a party to other legal proceedings in the ordinary course of business in Australia, the U.S. and other countries where the Company does business. Based on current information, the Company believes that such other pending or threatened proceedings are likely to be resolved without a material adverse effect on its financial condition, results of operations or cash flows. In management's opinion, the Company is not currently involved in any legal proceedings, which individually or in the aggregate could have a material effect on the financial condition, results of operations and/or liquidity of the Company.

16. Material Transactions*New asset-based revolving credit facility*

On May 8, 2023, the Company, Coronado Coal Corporation, a Delaware corporation and wholly owned subsidiary of the Company, Coronado Finance Pty Ltd, an Australian proprietary company and a wholly owned subsidiary of the Company, or an Australian Borrower, Coronado Curragh Pty Ltd, an Australian proprietary company and wholly owned subsidiary of the Company, or an Australian Borrower and, together with the other Australian Borrower, the Borrowers, and the other guarantors party thereto, collectively with the Company, the Guarantors and, together with the Borrowers, the Loan Parties, entered into a senior secured asset-based revolving credit agreement in an initial aggregate amount of \$150.0 million, or the New ABL Facility, with Global Loan Agency Services Australia Pty Ltd, as the Administrative Agent, Global Loan Agency Services Australia Nominees Pty Ltd, as the Collateral Agent, the Hongkong and Shanghai Banking Corporation Limited, Sydney Branch, as the Lender, and DBS Bank Limited, Australia Branch, as the Lender and, together with the other Lender, the Lenders.

On August 3, 2023, the Company satisfied all conditions precedent under the New ABL Facility agreement, at which time the New ABL Facility became effective and replaced the predecessor ABL Facility.

The New ABL Facility matures in August 2026 and provides for up to \$ 150.0 million in borrowings, including a \$100.0 million sublimit for the issuance of letters of credit and \$70.0 million sublimit as a revolving credit facility. Availability under the New ABL Facility is limited to an eligible borrowing base, determined by applying customary advance rates to eligible accounts receivable and inventory.

The New ABL Facility is guaranteed by the Guarantors. Amounts outstanding under the New ABL Facility are secured by (i) first priority lien in the accounts receivable and other rights to payment, inventory, intercompany indebtedness, certain general intangibles and commercial tort claims, commodities accounts, deposit accounts, securities accounts and other related assets and proceeds and products of each of the foregoing, collectively, the New ABL Collateral, and (ii) a second-priority lien on substantially all of the Company's assets and the assets of the guarantors, other than the New ABL Collateral, and (iii) solely in the case of the obligations of the Australian Borrower, a featherweight floating security interest over certain assets of the Australian Borrower, in each case, subject to certain customary exceptions.

Borrowings under the New ABL Facility bear interest at a rate per annum equal to applicable rate of 2.80% and BBSY, for loans denominated in A\$, or SOFR, for loans denominated in US\$, at the Borrower's election.

[Table of Contents](#)**NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

The New ABL Facility contains customary representations and warranties and affirmative and negative covenants including, among others, a covenant regarding the maintenance of leverage ratio to be less than 3.00 times, a covenant regarding maintenance of interest coverage ratio to be more than 3.00 times, covenants relating to the payment of dividends, or purchase or redemption of, with respect to any Equity Interests of Holdings or any of its Subsidiaries, covenants relating to financial reporting, covenants relating to the incurrence of liens or encumbrances, covenants relating to the incurrence or prepayment of certain debt, compliance with laws, use of proceeds, maintenance of properties, maintenance of insurance, payment obligations, financial accommodation, mergers and sales of all or substantially all of the Borrowers and Guarantors', collectively the Loan Parties, assets and limitations on changes in the nature of the Loan Parties' business.

Subject to customary grace periods and notice requirements, the New ABL Facility also contains customary events of default.

Curragh Housing Transaction

On May 8, 2023, the Company entered into an agreement, the Curragh Housing Agreement, for accommodation services and to sell and leaseback housing and accommodation assets included in property, plant and equipment. The transaction did not satisfy the sale criteria under ASC 606 – *Revenues from Contracts with Customers* and was deemed a financing arrangement. As a result, the Company continued to recognize the underlying property, plant and equipment on its condensed consolidated balance sheet. Upon completion, the proceeds of \$22.9 million (A\$34.6 million) received from the transaction will be recorded as "Other Financial Liabilities" on the Company's condensed consolidated balance sheet. The term of the financing arrangement is ten years with an effective interest rate of 12.8%.

In connection with this transaction, the Company borrowed an additional amount of \$26.8 million (A\$40.4 million) which will be recorded in "Interest Bearing Liabilities" on completion date. The term of the arrangement is ten years with an effective interest rate of 12.8%.

The Curragh Housing Agreement is subject to conditions precedent not completed as at June 30, 2023.

In line with the Company's capital management strategy, the above transactions provide additional liquidity. In addition, the accommodation services component of the Curragh Housing Agreement is anticipated to enhance the level of service for our employees at our Curragh mine.

17. Subsequent Events***Ordinary dividends***

On August 7, 2023, the Company's Board of Directors declared a bi-annual fully franked fixed ordinary dividend of \$8.4 million, or 0.5 cents per CDI. The Company is not required to make an offer to purchase Notes for this dividend due to the available and unaccepted portion of the offer to purchase the Notes previously made in connection with special dividends declared on October 30, 2022.

The dividend will have a record date of August 29, 2023, Australia time, and be payable on September 19, 2023, Australia time. CDIs will be quoted "ex" dividend on August 28, 2023, Australia time. The total ordinary dividend will be funded from available cash.

We have reviewed the accompanying condensed consolidated balance sheet of Coronado Global Resources Inc. (the Company) as of June 30, 2023, the related condensed consolidated statements of operations and comprehensive income for the three and six-month periods ended June 30, 2023 and 2022, the condensed consolidated statements of stockholders' equity for the three-months periods ended March 31 and June 30, 2023 and 2022, the condensed consolidated statements of cash flows for the six-month periods ended June 30, 2023 and 2022, and the related notes (collectively referred to as the "condensed consolidated interim financial statements"). Based on our reviews, we are not aware of any material modifications that should be made to the condensed consolidated interim financial statements for them to be in conformity with U.S. generally accepted accounting principles.

We have previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the consolidated balance sheet of the Company as of December 31, 2022, the related consolidated statements of operations and comprehensive income, stockholders' equity and cash flows for the year then ended, and the related notes (not presented herein), and in our report dated February 21, 2023, we expressed an unqualified audit opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying condensed consolidated balance sheet as of December 31, 2022, is fairly stated, in all material respects, in relation to the consolidated balance sheet from which it has been derived.

Basis for Review Results

These financial statements are the responsibility of the Company's management. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the SEC and the PCAOB. We conducted our review in accordance with the standards of the PCAOB. A review of interim financial statements consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the PCAOB, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following Management's Discussion and Analysis of our Financial Condition and Results of Operations, or MD&A, should be read in conjunction with the unaudited Condensed Consolidated Financial Statements and the related notes to those statements included elsewhere in this Form 10-Q. In addition, this Form 10-Q report should be read in conjunction with the Consolidated Financial Statements for year ended December 31, 2022 included in Coronado Global Resources Inc.'s Annual Report on Form 10-K for the year ended December 31, 2022, filed with the U.S. Securities and Exchange Commission, or SEC, and the Australian Securities Exchange, or the ASX, on February 21, 2023.

Unless otherwise noted, references in this Quarterly Report on Form 10-Q to "we," "us," "our," "Company," or "Coronado" refer to Coronado Global Resources Inc. and its consolidated subsidiaries and associates, unless the context indicates otherwise.

All production and sales volumes contained in this Quarterly Report on Form 10-Q are expressed in metric tons, or Mt, millions of metric tons, or MMT, or millions of metric tons per annum, or MMtpa, except where otherwise stated. One Mt (1,000 kilograms) is equal to 2,204.62 pounds and is equivalent to 1.10231 short tons. In addition, all dollar amounts contained herein are expressed in United States dollars, or US\$, except where otherwise stated. References to "A\$" are references to Australian dollars, the lawful currency of the Commonwealth of Australia. Some numerical figures included in this Quarterly Report on Form 10-Q have been subject to rounding adjustments. Accordingly, numerical figures shown as totals in certain tables may not equal the sum of the figures that precede them.

CAUTIONARY NOTICE REGARDING FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10-Q contains "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, or the Exchange Act, concerning our business, operations, financial performance and condition, the coal, steel and other industries, as well as our plans, objectives and expectations for our business, operations, financial performance and condition. Forward-looking statements may be identified by words such as "may," "could," "believes," "estimates," "expects," "intends," "plans," "anticipate," "forecast," "outlook," "target," "likely," "considers" and other similar words.

Any forward-looking statements involve known and unknown risks, uncertainties, assumptions and other important factors that could cause actual results, performance, events or outcomes to differ materially from the results, performance, events or outcomes expressed or anticipated in these statements, many of which are beyond our control. Such forward-looking statements are based on an assessment of present economic and operating conditions on a number of best estimate assumptions regarding future events and actions. These factors are difficult to accurately predict and may be beyond our control. Factors that could affect our results, our announced plans, or an investment in our securities include, but are not limited to:

- the prices we receive for our coal;
- uncertainty in global economic conditions, including the extent, duration and impact of the Russia and Ukraine war, as well as risks related to government actions with respect to trade agreements, treaties or policies;
- a decrease in the availability or increase in costs of key supplies, capital equipment or commodities, such as diesel fuel, steel, explosives and tires, as the result of inflationary pressures or otherwise;
- the extensive forms of taxation that our mining operations are subject to, and future tax regulations and developments. For example, the amendments to the coal royalty regime implemented by the Queensland state Government in Australia in 2022 introducing higher tiers to the coal royalty rates applicable to our Australian Operations;
- concerns about the environmental impacts of coal combustion and greenhouse gas, or GHG, emissions, relating to mining activities, including possible impacts on global climate issues, which could result in increased regulation of coal combustion and requirements to reduce GHG emissions in many jurisdictions, which could significantly affect demand for our products or our securities and reduced access to capital and insurance;

[Table of Contents](#)

- severe financial hardship, bankruptcy, temporary or permanent shut downs or operational challenges, due to future public health crisis (such as the COVID-19 pandemic), of one or more of our major customers, including customers in the steel industry, key suppliers/contractors, which among other adverse effects, could lead to reduced demand for our coal, increased difficulty collecting receivables and customers and/or suppliers asserting force majeure or other reasons for not performing their contractual obligations to us;
- our ability to generate sufficient cash to service our indebtedness and other obligations;
- our indebtedness and ability to comply with the covenants and other undertakings under the agreements governing such indebtedness;
- our ability to collect payments from our customers depending on their creditworthiness, contractual performance or otherwise;
- the demand for steel products, which impacts the demand for our metallurgical, or Met, coal;
- risks inherent to mining operations could impact the amount of coal produced, cause delay or suspend coal deliveries, or increase the cost of operating our business;
- the loss of, or significant reduction in, purchases by our largest customers;
- risks unique to international mining and trading operations, including tariffs and other barriers to trade;
- unfavorable economic and financial market conditions;
- our ability to continue acquiring and developing coal reserves that are economically recoverable;
- uncertainties in estimating our economically recoverable coal reserves;
- transportation for our coal becoming unavailable or uneconomic for our customers;
- the risk that we may be required to pay for unused capacity pursuant to the terms of our take-or-pay arrangements with rail and port operators;
- our ability to retain key personnel and attract qualified personnel;
- any failure to maintain satisfactory labor relations;
- our ability to obtain, renew or maintain permits and consents necessary for our operations;
- potential costs or liability under applicable environmental laws and regulations, including with respect to any exposure to hazardous substances caused by our operations, as well as any environmental contamination our properties may have or our operations may cause;
- extensive regulation of our mining operations and future regulations and developments;
- our ability to provide appropriate financial assurances for our obligations under applicable laws and regulations;
- assumptions underlying our asset retirement obligations for reclamation and mine closures;
- any cyber-attacks or other security breaches that disrupt our operations or result in the dissemination of proprietary or confidential information about us, our customers or other third parties;
- the risk that we may not recover our investments in our mining, exploration and other assets, which may require us to recognize impairment charges related to those assets;
- risks related to divestitures and acquisitions;
- the risk that diversity in interpretation and application of accounting principles in the mining industry may impact our reported financial results; and
- other risks and uncertainties detailed herein, including, but not limited to, those discussed in "Risk Factors," set forth in Part II, Item 1A of this Quarterly Report on Form 10-Q.

[Table of Contents](#)

We make many of our forward-looking statements based on our operating budgets and forecasts, which are based upon detailed assumptions. While we believe that our assumptions are reasonable, we caution that it is very difficult to predict the impact of known factors, and it is impossible for us to anticipate all factors that could affect our actual results.

See Part I, Item 1A. "Risk Factors" of our Annual Report on Form 10-K for the year ended December 31, 2022, filed with the SEC and ASX on February 21, 2023, and Part II, Item 1A. "Risk Factors" of our Quarterly Report on Form 10-Q for the quarterly period ended March 31, 2023, filed with SEC and ASX on May 8, 2023, for a more complete discussion of the risks and uncertainties mentioned above and for discussion of other risks and uncertainties we face that could cause actual results to differ materially from those expressed or implied by these forward-looking statements.

All forward-looking statements attributable to us are expressly qualified in their entirety by these cautionary statements, as well as others made in this Quarterly Report on Form 10-Q and hereafter in our other filings with the SEC and public communications. You should evaluate all forward-looking statements made by us in the context of these risks and uncertainties.

We caution you that the risks and uncertainties identified by us may not be all of the factors that are important to you. You should not interpret the disclosure of any risk to imply that the risk has not already materialized. Furthermore, the forward-looking statements included in this Quarterly Report on Form 10-Q are made only as of the date hereof. We undertake no obligation to publicly update or revise any forward-looking statement as a result of new information, future events, or otherwise, except as required by applicable law.

Overview

We are a global producer, marketer and exporter of a full range of Met coal products. We own a portfolio of operating mines and development projects in Queensland, Australia, and in the states of Virginia, West Virginia and Pennsylvania in the United States.

Our Australian Operations comprise the 100%-owned Curragh producing mine complex. Our U.S. Operations comprise two 100%-owned producing mine complexes (Buchanan and Logan), one 100%-owned idled mine complex (Greenbrier) and two development properties (Mon Valley and Russell County). In addition to Met coal, our Australian Operations sell thermal coal domestically, which is used to generate electricity, to Stanwell and some thermal coal in the export market. Our U.S. Operations primarily focus on the production of Met coal for the North American domestic and seaborne export markets and also produce and sell some thermal coal that is extracted in the process of mining Met coal.

Coronado performed strongly in the second quarter of 2023 delivering on a number of milestones that we believe have placed the Company well for the remainder of 2023. The business delivered quarter-on-quarter higher production, overburden and sales volumes, and continued to maintain a strong balance sheet with healthy liquidity levels.

Coking coal index prices continued to decline over the second quarter of 2023. The downward price adjustment was driven mostly by weak end user demand resulting in delayed restocking of coal inventories, combined with higher supply from Australia due to drier operating conditions in the second quarter of 2023. The global economic environment and weak steel demand continues to put pressure on steel margins with steelmakers continuing to lower steel prices and delay raw material procurement. The Australian Premium Low Volatile Hard Coking Coal, or AUS PLV HCC, index price averaged \$242.8 per Mt for the three months ended June 30, 2023, \$101.1 per Mt lower, compared to the three months ended March 31, 2023. The AUS PLV HCC averaged \$293.8 per Mt for the six months ended June 30, 2023, \$173.0 per Mt lower, compared to the six months ended June 30, 2022.

Our results for the six months ended June 30, 2023, were adversely impacted by (1) lower average realized Met price per Mt sold compared to the six months ended June 30, 2022, (2) significant wet weather events during the first quarter of 2023 at our Australian Operations impacting production, (3) continued inflationary pressure, (4) additional fleets deployed to recover pre-strip overburden removal, (5) a train derailment in January 2023 on the Blackwater line which impacted our sales volume.

For the six months ended June 30, 2023, we produced 8.2 MMt and sold 7.6 MMt of coal. Met coal sales represented 75.3% of our total volume of coal sold and 90.0% of total coal revenues for the six months ended June 30, 2023, compared to 77.8% and 96.3%, respectively, for the six months ended June 30, 2022.

Coal revenues of \$1,455.8 million for the six months ended June 30, 2023, decreased by 25.6% compared to the same period in 2022, driven by average realized Met price per Mt sold, which was \$65.7 per Mt lower than the \$292.8 average realized price per Mt sold for the six months ended June 30, 2022. Sales volumes were 0.7 Mt lower for the six months ended June 30, 2023, compared to the same period in 2022, largely due to significant wet weather events and equipment breakdowns, impacting production performance and coal availability, and

[Table of Contents](#)

delays on production of required coal qualities to meet sales commitments at our Australian Operations during the second quarter of 2023.

Mining costs for the six months ended June 30, 2023, were \$723.8 million, or \$12.0 per Mt sold higher compared to the corresponding period in 2022, primarily driven by inflationary pressures and the impacts from lower production in the first quarter of 2023 deferred to subsequent quarters following the above average wet weather in January and train derailment on the Blackwater line.

Dividends

On April 5, 2023, the Company settled its previously declared dividends of \$8.4 million, which were paid to stockholders from available cash.

Liquidity

As of June 30, 2023, our net cash position, comprising of \$434.1 million cash (excluding restricted cash) less \$242.3 million aggregate principal amount of Notes outstanding, was \$191.8 million. Coronado has available liquidity of \$534.1 million as of June 30, 2023, consisting of cash (excluding restricted cash) and \$100.0 million availability under our ABL facility fully undrawn.

Safety

For our Australian Operations, the twelve-month rolling average Total Reportable Injury Frequency Rate, or TRIFR, at June 30, 2023 was 2.52, compared to a rate of 3.92 at the end of December 31, 2022. At our U.S. Operations, the twelve-month rolling average Total Reportable Incident Rate, or TRIR, at June 30, 2023 was 2.05, compared to a rate of 2.42 at the end of December 31, 2022. Reportable rates for our Australian and U.S. Operations are below the relevant industry benchmarks.

Our Logan mining complex at our U.S. Operations, which includes multiple underground and surface mines, achieved one million hours Lost Time Injury, or LTI, free during the quarter.

The health and safety of our workforce is our number one priority and Coronado continues to advance several initiatives to improve our safety rates every quarter.

Segment Reporting

In accordance with Accounting Standards Codification, or ASC, 280, Segment Reporting, we have adopted the following reporting segments: Australia and the United States. In addition, "Other and Corporate" is not a reporting segment but is disclosed for the purposes of reconciliation to our consolidated financial statements.

Results of Operations

How We Evaluate Our Operations

We evaluate our operations based on the volume of coal we can safely produce and sell in compliance with regulatory standards, and the prices we receive for our coal. Our sales volume and sales prices are largely dependent upon the terms of our coal sales contracts, for which prices generally are set based on daily index averages, on a quarterly basis or annual fixed price contracts.

Our management uses a variety of financial and operating metrics to analyze our performance. These metrics are significant factors in assessing our operating results and profitability. These financial and operating metrics include: (i) safety and environmental metrics; (ii) Adjusted EBITDA; (iii) total sales volumes and average realized price per Mt sold, which we define as total coal revenues divided by total sales volume; (iv) Met coal sales volumes and average realized Met price per Mt sold, which we define as Met coal revenues divided by Met coal sales volume; (v) average segment mining costs per Mt sold, which we define as mining costs divided by sales volumes (excluding non-produced coal) for the respective segment; (vi) average segment operating costs per Mt sold, which we define as segment operating costs divided by sales volumes for the respective segment; and (vii) net cash, which we define as cash and cash equivalents (excluding restricted cash) less outstanding aggregate principal amount of 10.750% senior secured notes due 2026.

Coal revenues are shown on our statement of operations and comprehensive income exclusive of other revenues. Generally, export sale contracts for our Australian Operations require us to bear the cost of freight from our mines to the applicable outbound shipping port, while freight costs from the port to the end destination are typically borne by the customer. Sales to the export market from our U.S. Operations are generally recognized when title to the coal passes to the customer at the mine load out similar to a domestic sale. For our domestic sales, customers typically bear the cost of freight. As such, freight expenses are excluded from cost of coal revenues to allow for consistency and comparability in evaluating our operating performance.

[Table of Contents](#)
Non-GAAP Financial Measures; Other Measures

The following discussion of our results includes references to and analysis of Adjusted EBITDA, Segment Adjusted EBITDA and mining costs, which are financial measures not recognized in accordance with U.S. GAAP. Non-GAAP financial measures, including Adjusted EBITDA, Segment Adjusted EBITDA and mining costs, are used by investors to measure our operating performance.

Adjusted EBITDA, a non-GAAP measure, is defined as earnings before interest, tax, depreciation, depletion and amortization and other foreign exchange losses. Adjusted EBITDA is also adjusted for certain discrete non-recurring items that we exclude in analyzing each of our segments' operating performance. Adjusted EBITDA is not intended to serve as an alternative to U.S. GAAP measures of performance and may not be comparable to similarly titled measures presented by other companies. A reconciliation of Adjusted EBITDA to its most directly comparable measure under U.S. GAAP is included below.

Segment Adjusted EBITDA is defined as Adjusted EBITDA by operating and reporting segment, adjusted for certain transactions, eliminations or adjustments that our CODM does not consider for making decisions to allocate resources among segments or assessing segment performance. Segment Adjusted EBITDA is used as a supplemental financial measure by management and by external users of our financial statements, such as investors, industry analysts and lenders, to assess the operating performance of the business.

Mining costs, a non-GAAP measure, is based on reported cost of coal revenues, which is shown on our statement of operations and comprehensive income exclusive of freight expense, Stanwell rebate, other royalties, depreciation, depletion and amortization, and selling, general and administrative expenses, adjusted for other items that do not relate directly to the costs incurred to produce coal at a mine. Mining costs excludes these cost components as our CODM does not view these costs as directly attributable to the production of coal. Mining costs is used as a supplemental financial measure by management, providing an accurate view of the costs directly attributable to the production of coal at our mining segments, and by external users of our financial statements, such as investors, industry analysts and ratings agencies, to assess our mine operating performance in comparison to the mine operating performance of other companies in the coal industry.

Three Months Ended June 30, 2023 Compared to Three Months Ended June 30, 2022
Summary

The financial and operational highlights for the three months ended June 30, 2023 include:

- Net income of \$91.3 million for the three months ended June 30, 2023, was \$200.7 million lower compared to \$292.0 million for the three months ended June 30, 2022. This decrease was driven by lower revenues due to lower average realized Met coal price per Mt sold, partially offset by lower costs.
- Sales volume totaled 4.0 MMt for the three months ended June 30, 2023, compared to 3.9 MMt for the three months ended June 30, 2022. The higher sales volumes were mainly driven by higher production due to weather conditions more favorable than 2022.
- Average realized Met price per Mt sold of \$219.5 for the three months ended June 30, 2023, was 31.7% lower compared to record quarterly average realized price of \$321.2 per Mt sold for the same period in 2022. The coking coal index prices remained stable during the second quarter of 2023, however, significantly, lower than the same period in 2022.
- Adjusted EBITDA for the three months ended June 30, 2023, of \$161.5 million, a decrease of \$276.8 million, compared to \$438.4 million for the three months ended June 30, 2022, largely due to lower coal sales revenues partially offset by lower operating costs.
- As of June 30, 2023, the Company had total available liquidity of \$534.1 million, consisting of \$434.1 million cash (excluding restricted cash) and \$100.0 million of availability under the ABL Facility.

Coal Revenues

Coal revenues were \$717.4 million for the three months ended June 30, 2023, a decrease of \$303.6 million, compared to \$1,021.0 million for the three months ended June 30, 2022. The decrease was largely a result of lower average realized Met coal price of \$219.5 per Mt sold for the three months ended June 30, 2023, compared to \$321.2 per Mt sold for the same period in 2022.

Cost of Coal Revenues (Exclusive of Items Shown Separately Below)

Cost of coal revenues comprise costs related to produced tons sold, along with changes in both the volumes and carrying values of coal inventory. Cost of coal revenues include items such as direct operating costs, which includes employee-related costs, materials and supplies, contractor services, coal handling and preparation costs and production taxes.

Total cost of coal revenues was \$381.0 million for the three months ended June 30, 2023, \$16.5 million, or 4.2% lower, compared to \$397.5 million for the three months ended June 30, 2022.

Cost of coal revenues for our U.S Operations for the three months ended June 30, 2023, was \$12.9 million lower compared to the three months ended June 30, 2022, largely due to lower sales volume of 0.1 MMt, partially offset by inflationary impact on labor and supply costs. Our Australian Operations contributed \$3.6 million to the decrease in total cost of coal revenues primarily due to favorable average foreign exchange rate on translation of the Australian Operations for the three months ended June 30, 2023, of A\$/US\$: 0.67 compared to 0.72 for the same period in 2022, and lower third party purchased coal, partially offset by cost of additional fleets to advance pre-strip overburden removal.

Depreciation, Depletion and Amortization

Depreciation, depletion and amortization was \$38.9 million for the three months ended June 30, 2023, a decrease of \$12.5 million, as compared to \$51.4 million for the three months ended June 30, 2022. The decrease was associated with assets fully depreciated, lower depreciation rates following annual useful life review and favorable average foreign exchange rate on translation of the Australian Operations, partially offset by additional equipment brought into service during the twelve months since June 30, 2022.

[Table of Contents](#)**Freight Expenses**

Freight expenses relate to costs associated with rail and port providers, including take-or-pay commitments at our Australian Operations, and demurrage costs. Freight expenses totaled \$57.4 million for the three months ended June 30, 2023, a decrease of \$9.6 million, compared to \$67.0 million for the three months ended June 30, 2022. Our U.S. Operations' freight cost contributed \$8.1 million to this decrease, driven by lower coal sales under Free on Board, or FOB, terms, compared to the three months ended June 30, 2022, combined with favorable foreign exchange rate on translation of our Australian Operations.

Stanwell Rebate

The Stanwell rebate was \$29.0 million for the three months ended June 30, 2023, a decrease of \$11.5 million, compared to \$40.5 million for the three months ended June 30, 2022. The decrease was largely driven by lower realized export reference coal pricing for the prior twelve-month period applicable to three months ended June 30, 2023, used to calculate the rebate compared to the same period in 2022, and favorable foreign exchange rate on translation of our Australian Operations.

Other Royalties

Other royalties were \$89.9 million in the three months ended June 30, 2023, an increase of \$10.6 million, as compared to \$79.3 million for the three months ended June 30, 2022. Despite the decrease in coal revenues, Other Royalties have increased due to the adverse impact of the new Queensland Government royalty regime effective from July 1, 2022 to our Australian Operations, partially offset by favorable foreign exchange rate on translation of our Australian Operations. The new royalty regime has resulted in \$29.4 million additional royalty costs for the three months ended June 30, 2023, compared to the same period in 2022.

Interest Expense, net

Interest expense, net was \$14.2 million in the three months ended June 30, 2023, a decrease of \$3.3 million compared to \$17.5 million for the three months ended June 30, 2022. The decrease was due to lower Notes outstanding during the three months ended June 30, 2023, following redemptions since June 30, 2022.

Income Tax Expense

Income tax expense of \$22.0 million for the three months ended June 30, 2023, decreased by \$80.0 million, compared to a tax expense of \$102.0 million for the three months ended June 30, 2022, driven by lower income before tax in the 2023 period.

The income tax expense for the three months ended June 30, 2023, is based on an annual effective tax rate of 21.9%.

[Table of Contents](#)**Six months ended June 30, 2023 compared to Six months ended June 30, 2022****Summary**

The financial and operational highlights for the six months ended June 30, 2023 include:

- Net income of \$199.2 million for the six months ended June 30, 2023, a decrease of \$362.7 million, from \$561.9 million for the six months ended June 30, 2022. The decrease was a result of lower revenues, higher operating costs partially offset by lower income tax expense.
- Sales volume totaled 7.6 MMt for the six months ended June 30, 2023, or 0.7 MMt lower than the six months ended June 30, 2022. The lower sales volumes were primarily driven by the impact of wet weather and equipment breakdowns on production performance and coal availability, delay on production of required coal qualities to meet sales commitments and sales slippage into next quarter at our Australian Operations combined with change in timing of shipments at our U.S. Operations.
- Average realized Met price per Mt sold of \$229.1 for the six months ended June 30, 2023 was 21.8% lower compared to \$292.8 per Mt sold for the six months ended June 30, 2022, as the Met coal supply has readjusted following the impact of the Russia and Ukraine war on the global coal supply chain in the first half of 2022, combined with improved supply from Australia and weak demand from steelmakers in Asia and Europe.
- Adjusted EBITDA of \$352.3 million for the six months ended June 30, 2023, was \$497.1 million lower compared to \$849.3 million for the six months ended June 30, 2022. This decrease was a result of lower coal revenues and higher operating costs.
- As of June 30, 2023, the Company had net cash of \$191.8 million, consisting of a closing cash balance (excluding restricted cash) of \$434.1 million and \$242.3 million aggregate principal amount outstanding of the Notes.

Coal Revenues

Coal revenues were \$1,455.8 million for the six months ended June 30, 2023, a decrease of \$501.8 million, compared to \$1,957.6 million for the six months ended June 30, 2022. The decrease was driven by unfavorable market conditions and lower coal indices, which resulted in lower average realized Metprice per Mtsold of \$229.1 compared to \$292.8 per Mt sold combined with lower sales volume of 7.6 million, a decrease of 0.7 million, compared to the same period in 2022.

Other Revenues

Other revenues were \$37.5 million for the six months ended June 30, 2023, an increase of \$15.3 million, compared to \$22.2 million for the six months ended June 30, 2022. This increase was primarily driven by a termination fee revenue from a coal sales contract cancelled at our U.S. Operations.

Cost of Coal Revenues (Exclusive of Items Shown Separately Below)

Total cost of coal revenues was \$761.4 million for the six months ended June 30, 2023, a decrease of \$6.5 million, compared to \$755.0 million for the six months ended June 30, 2022.

Cost of coal revenues for our Australian Operations in the six months ended June 30, 2023, were \$8.4 million higher compared to the same period in 2022, driven by the continued impact of inflation on labor, contractor costs and other supply costs. Higher costs were partially offset by the impact of building inventory resulting from saleable production exceeding sales volume in the 2023 period and favorable average foreign exchange rate on translation of the Australian Operations for the six months ended June 30, 2023, of A\$/US\$: 0.68 compared to 0.72 for the same period in 2022. Cost of coal revenues for our U.S. Operations were \$1.9 million lower for the six months ended June 30, 2023, compared to the same period in 2022.

Depreciation, Depletion and Amortization

Depreciation, depletion and amortization was \$78.3 million for the six months ended June 30, 2023, a decrease of \$11.1 million, as compared to \$89.4 million for the six months ended June 30, 2022. The decrease was associated with assets fully depreciated, lower depreciation rates following annual useful life review and favorable average foreign exchange rate on translation of the Australian Operations, partially offset by additional equipment brought into service during the twelve months since June 30, 2022.

Freight Expenses

Freight expenses totaled \$120.8 million for the six months ended June 30, 2023, a decrease of \$5.5 million, compared to \$126.2 million for the six months ended June 30, 2022. Our Australian Operations contributed \$7.5 million to this decrease due to lower coal sales and the benefits of lower average foreign exchange rate on translation of the Australian Operations, partially offset by higher freight costs at our U.S. Operations due to higher coal sales on FOB terms compared to the six months ended June 30, 2022.

Stanwell Rebate

The Stanwell rebate was \$68.3 million for the six months ended June 30, 2023, a decrease of \$1.3 million, as compared to \$69.6 million for the six months ended June 30, 2022. The decrease was due to lower export sales volume and favorable average foreign exchange rate on translation of the Australian Operations, partially offset by higher realized export reference coal pricing for the prior twelve-month period applicable to the six months ended June 30, 2023, used to calculate the rebate compared to the same period in 2022.

Other Royalties

Other royalties were \$175.9 million for the six months ended June 30, 2023, an increase of \$13.5 million, as compared to \$162.4 million for the six months ended June 30, 2022. Royalties have increased compared to a significant decline in coal revenues due to the adverse impact of the new royalty regime effective since from July 1, 2022 to our Australian Operations, partially offset by lower sales volumes and favorable foreign exchange rate on translation of our Australian Operations. The new royalty regime resulted in \$58.7 million additional royalty costs for the six months ended June 30, 2023 compared to the same period in 2022.

Decrease (increase) in Provision for Discounting and Credit Losses

Decrease in provision for discounting and credit losses of \$3.7 million in the six months ended June 30, 2023, a favorable movement of \$4.3 million compared to increase in provision for discounting and credit losses of \$0.5

[Table of Contents](#)

million for the six months ended June 30, 2022. The lower provision was primarily driven by timely collection of certain overdue trade receivables at December 31, 2022 during the six months ended June 30, 2023.

Other, net

Other, net was \$9.5 million in the six months ended June 30, 2023, a decrease of \$12.8 million compared to the net gain of \$22.3 million for the six months ended June 30, 2022. The decrease was driven by lower foreign exchange gains on translation of short-term inter-entity balances in certain entities within the group that are denominated in currencies other than their respective functional currencies.

Income Tax Expense

Income tax expense of \$56.0 million for the six months ended June 30, 2023 decreased by \$128.0 million, compared to \$184.0 million tax expense for the six months ended June 30, 2022, primarily driven by lower net income before tax in the 2023 period.

The income tax expense for the six months ended June 30, 2023 is based on an annual effective tax rate of 21.9%.

Coal revenues for our Australian Operations, for the three months ended June 30, 2023, were \$423.1 million, a decrease of \$145.2 million, or 25.6%, compared to \$568.3 million for the three months ended June 30, 2022. This decrease was driven by lower average realized Met coal price per Mt sold of \$237.7 for the three months ended June 30, 2023, compared to \$357.4 per Mt sold for the same period in 2022 as Met coal price index continues to rebalance from record highs achieved in the first half of 2022 and global supply chain disruptions stabilized readjusting coal markets. The lower realized pricing was partially offset by higher sales volume of 0.2 MMt due to improved production performance as a result of favorable weather conditions compared to the same period in 2022.

Operating costs were \$376.4 million, a decrease of \$5.5 million or 1.4%, for the three months ended June 30, 2023, compared to \$381.9 million for the three months ended June 30, 2022. The decrease was largely driven by lower Stanwell rebate, lower third-party coal purchases due to higher production, and favorable average foreign exchange on translation of the Australian Operations. This decrease was partially offset by higher mining costs and higher royalties as a result of the new royalty regime introduced by the Queensland government from July 1, 2022. Mining costs were \$20.5 million, or 10.0%, higher for the three months ended June 30, 2023, compared to the same period in 2022, largely driven by greater pre-strip activity and continued inflationary pressures on contractor and supply costs. Mining and Operating cost per Mt sold for the three months ended June 30, 2023 decreased by \$1.5 and \$11.6 to \$92.6 and \$152.6 per Mt sold, respectively, which benefitted from higher sales volume in the 2023 period.

Segment Adjusted EBITDA of \$54.7 million for the three months ended June 30, 2023, decreased by \$141.6 million compared to \$196.3 million for the three months ended June 30, 2022, largely driven by lower coal revenues.

Coal revenues decreased by \$158.3 million, or 35%, to \$294.3 million for the three months ended June 30, 2023, compared to \$452.7 million for the three months ended June 30, 2022. This decrease was a result of lower average realized Met price per Mt sold for the three months ended June 30, 2023, of \$196.0 per Mt sold compared to \$286.2 per Mt sold for the same period in 2022, due to lower volatility in the coal market resulting in lower but stable coal price indices. Coal revenues were also impacted by lower sales volume of 0.1 MMt due to sales deferred into the next quarter.

Operating costs decreased by \$21.4 million, or 10.6%, to \$181.0 million for the three months ended June 30, 2023, compared to operating costs of \$202.5 million for the three months ended June 30, 2022. The decrease was largely driven by lower mining costs, from building inventory as saleable production exceeded sales volume, and lower freight expense from lower sales on FOB terms. This decrease was partially offset by the continued impact of inflation on supplies and labor costs.

Segment Adjusted EBITDA of \$116.5 million for the three months ended June 30, 2023, decreased by \$135.9 million compared to \$252.4 million for the three months ended June 30, 2022, primarily driven by lower average realized Met price per Mt sold, partially offset by lower operating costs.

Corporate and Other Adjusted EBITDA

Coal revenues for our Australian Operations for the six months ended June 30, 2023 were \$813.9 million, a decrease of \$350.7 million, or 30.1%, compared to \$1,164.6 million for the six months ended June 30, 2022. This decrease was driven by lower average realized Met price per Mt sold of \$239.7, \$89.7 lower compared to \$329.4 per Mt sold for the six months ended June 30, 2022, due to decline in coal indices as supply chain within the steel markets readjusted following the Russia-Ukraine war as well as overall weak demand from steelmakers in Asia and Europe. Coal revenues were further impacted by significant wet weather events and their associated recovery time on production performance resulting in lower sales volumes of 4.7 MMt, 0.4 MMt lower than the six months ended June 30, 2022.

Operating costs increased by \$14.0 million, or 1.9%, for the six months ended June 30, 2023, compared to the six months ended June 30, 2022, primarily driven by higher mining costs and royalties expense. Mining costs were \$54.5 million higher for the six months ended June 30, 2023, due to the continued impact of inflation on contractor and supply costs, significant overburden removal improving coal availability for the second half of 2023. Royalty costs were higher as a result of the impact of the amended royalty regime introduced by the Queensland Government applicable from July 1, 2022. This increase was partially offset by lower third-party purchase coal transactions, favorable average foreign exchange on translation of our Australian Operations to U\$ and lower Stanwell rebate and freight expenses. Increase costs combined with lower sales volumes resulted in higher Mining and Operating costs per Mt sold of \$16.0 and \$17.4, respectively, compared to the same period in 2022.

For the six months ended June 30, 2023, Adjusted EBITDA of \$67.9 million, were \$367.4 million lower compared to \$435.3 million for the six months ended June 30, 2022. This decrease was a result of lower coal revenues and higher operating costs.

Coal revenues decreased by \$151.1 million, or 19.1%, to \$641.9 million for the six months ended June 30, 2023, as compared to \$793.0 million for the six months ended June 30, 2022. This decrease was mainly due to lower average realized Met price per Mt sold for the six months ended June 30, 2023 of \$215.5 compared to \$253.5 per Mt sold for the same period in 2022, product mix and lower sales volume, driven by adverse weather events and unplanned maintenance which impacted production in the 2023 period.

Operating costs of \$364.8 million remained consistent compared to \$365.6 million for the six months ended June 30, 2022. Mining costs of \$262.0 million for the six months ended June 30, 2023 were \$2.2 million lower compared to the 2022 period, driven by inventory build as a result of production outweighing sales volume, partially offset by continued inflationary impact on labor and supply costs. Mining and Operating costs per Mt sold decreased by \$5.5 and \$7.1, respectively, due to lower sales volume in the six months ended June 30, 2023.

Adjusted EBITDA of \$301.5 million decreased by \$130.8 million, or 30.2%, for the six months ended June 30, 2023 compared to \$432.3 million for the six months ended June 30, 2022. This decrease was primarily driven by lower coal revenues.

Corporate and other costs of \$17.2 million for the six months ended June 30, 2023, were \$1.0 million lower compared to \$18.2 million for the six months ended June 30, 2022, due to timing of certain corporate costs.

Liquidity and Capital Resources
Overview

Our objective is to maintain a prudent capital structure and to ensure that sufficient liquid assets and funding is available to meet both anticipated and unanticipated financial obligations, including unforeseen events that could have an adverse impact on revenues or costs. Our principal sources of funds are cash and cash equivalents, cash flow from operations and availability under our debt facilities.

Our main uses of cash have historically been, and are expected to continue to be, the funding of our operations, working capital, capital expenditure, debt service obligations, business or assets acquisitions and payment of dividends. Based on our outlook for the next twelve months, which is subject to continued changing demand from our customers, volatility in coal prices, ongoing interruptions and uncertainties surrounding China's import restrictions, such as trade barriers imposed by China on Australian sourced coal and the uncertainty of impacts from the Russia and Ukraine war on the global supply chain, we believe expected cash generated from operations together with available borrowing facilities and other strategic and financial initiatives, will be sufficient to meet the needs of our existing operations, capital expenditure, service our debt obligations and, if declared, payment of dividends.

Our ability to generate sufficient cash depends on our future performance which may be subject to a number of factors beyond our control, including general economic, financial and competitive conditions and other risks described in this document, and Part I, Item 1A. "Risk Factors" of our Annual Report on Form 10-K for the year ended December 31, 2022, filed with the SEC and ASX on February 21, 2023, and Part II, Item 1A. "Risk Factors" of our Quarterly Report on Form 10-Q for the quarterly period ended March 31, 2023, filed with the SEC and ASX on May 8, 2023.

Liquidity as of June 30, 2023 and December 31, 2022 was as follows:

| (in US\$ thousands) | June 30, 2023 | December 31, 2022 |
|--|---------------|-------------------|
| Cash, excluding restricted cash | \$ 434,078 | \$ 334,378 |
| Availability under ABL Facility ⁽¹⁾ | 100,000 | 100,000 |
| Total | \$ 534,078 | \$ 434,378 |

⁽¹⁾ The ABL Facility contains a springing fixed charge coverage ratio of not less than 1.00 to 1.00, which ratio is tested if availability under the ABL facility is less than \$17.5 million for five consecutive business days or less than \$15.0 million on any business day.

Our total indebtedness as of June 30, 2023 and December 31, 2022 consisted of the following:

| (in US\$ thousands) | June 30, 2023 | December 31, 2022 |
|---|---------------|-------------------|
| Current installments of interest bearing liabilities | \$ 242,326 | \$ 242,326 |
| Current installments of other financial liabilities and finance lease obligations | 4,013 | 4,585 |
| Other financial liabilities and finance lease obligations, excluding current installments | 7,031 | 8,336 |
| Total | \$ 253,370 | \$ 255,247 |

Liquidity

As of June 30, 2023, available liquidity was \$534.1 million, comprised of cash and cash equivalents (excluding restricted cash) of \$434.1 million and \$100.0 million of available borrowings under our ABL Facility.

As of December 31, 2022, available liquidity was \$434.4 million, comprised of cash and cash equivalents (excluding restricted cash) of \$334.4 million and \$100.0 million of available borrowings under our ABL Facility.

Cash

Cash is held in multicurrency interest bearing bank accounts available to be used to service the working capital needs of the Company. Cash balances surplus to immediate working capital requirements are invested in short-term interest-bearing deposit accounts or used to repay interest bearing liabilities.

Senior Secured Notes

As of June 30, 2023, the outstanding principal amount of our Notes was \$242.3 million. Interest on the Notes is payable semi-annually in arrears on May 15 and November 15 of each year. The Notes mature on May 15, 2026 and are senior secured obligations of the Company.

The Notes are guaranteed on a senior secured basis by the Company and its wholly-owned subsidiaries (other than the Issuer) (subject to certain exceptions and permitted liens) and secured by (i) a first-priority lien on substantially all of the Company's assets and the assets of the other guarantors (other than accounts receivable and other rights to payment, inventory, intercompany indebtedness, certain general intangibles and commercial tort claims, commodities accounts, deposit accounts, securities accounts and other related assets and proceeds and products of each of the foregoing, or, collectively, the ABL Collateral), or the Notes Collateral, and (ii) a second-priority lien on the ABL Collateral, which is junior to a first-priority lien, for the benefit of the lenders under the ABL Facility.

The terms of the Notes are governed by the Indenture. The Indenture contains customary covenants for high yield bonds, including, but not limited to, limitations on investments, liens, indebtedness, asset sales, transactions with affiliates and restricted payments, including payment of dividends on capital stock.

The Company may redeem some or all of the Notes at the redemption prices and on the terms specified in the Indenture. In addition, the Company may, from time to time, seek to retire or purchase outstanding debt through open-market purchases, privately negotiated transactions or otherwise. Such repurchases, if any, will be upon such terms and at such prices as the Company may determine, and will depend on prevailing market conditions, liquidity requirements, contractual restrictions and other factors.

As of June 30, 2023, we were in compliance with all applicable covenants under the Indenture.

ABL Facility

The ABL Facility, dated May 12, 2021, is for an aggregate multi-currency lender commitment of up to \$100.0 million, including \$30.0 million sublimit for the issuance of letters of credit and \$5.0 million for swingline loans, at any time outstanding, subject to borrowing base availability. The ABL Facility will mature on May 12, 2024. Borrowings under the ABL Facility bear interest at a rate equal to a BBSY rate plus an applicable margin. As of June 30, 2023, no amounts were drawn and no letters of credit were outstanding under the ABL Facility.

As of June 30, 2023, we were in compliance with applicable covenants under the ABL Facility.

Refinance update

On May 8, 2023, we entered into the New ABL Facility which will provide for up to \$150.0 million in borrowings, including a \$100.0 million sublimit for the issuance of letters of credit and \$70.0 million sublimit for revolving credit facility. Availability under the New ABL Facility is limited to an eligible borrowing base, determined by applying customary advance rates to eligible accounts receivable and inventory. The New ABL Facility matures in 2026.

On August 3, 2023, all the conditions precedent under the New ABL Facility agreement were satisfied, at which time the New ABL Facility became effective and the ABL Facility was terminated in accordance with its terms.

Bank Guarantees and Surety Bonds

We are required to provide financial assurances and securities to satisfy contractual and other requirements generated in the normal course of business. Some of these assurances are provided to comply with state or other government agencies' statutes and regulations.

As required by certain agreements, we had cash collateral in the form of deposits in the amount of \$89.5 million and \$89.1 million as of June 30, 2023, and December 31, 2022, respectively, to provide back-to-back support for bank guarantees, financial payments, other performance obligations, various other operating agreements and contractual obligations under workers compensation insurance. These deposits are restricted and classified as long-term assets in the unaudited Condensed Consolidated Balance Sheets.

In accordance with the terms of the ABL Facility, we may be required to cash collateralize the ABL Facility to the extent of outstanding letters of credit after the expiration or termination date of such letter of credit. As of June 30, 2023, no letter of credit was outstanding and no cash collateral was required.

For the U.S. Operations in order to provide the required financial assurance, we generally use surety bonds for post-mining reclamation. We can also use bank letters of credit to collateralize certain obligations. As of June 30, 2023, we had outstanding surety bonds of \$40.8 million and letters of credit of \$16.8 million issued from our available bank guarantees, to meet contractual obligations under workers compensation insurance and to secure other obligations and commitments.

For the Australian Operations, we had bank guarantees outstanding of \$24.2 million as at June 30, 2023, primarily in respect of certain rail and port arrangements of the Company.

As at June 30, 2023, we had total outstanding bank guarantees provided of \$41.0 million to secure obligations and commitments. Future regulatory changes relating to these obligations could result in increased obligations, additional costs or additional collateral requirements.

Dividend

On February 21, 2023, our Board of Directors declared a bi-annual fully franked fixed ordinary dividend of \$8.4 million, or 0.5 cents per CDI. On April 5, 2023, the Company paid \$8.3 million, net of \$0.1 million foreign exchange gain on payment of dividends to certain CDI holders who elected to be paid in Australian dollars.

On August 7, 2023, the Company's Board of Directors declared a bi-annual fully franked fixed ordinary dividend of \$8.4 million, or 0.5 cents per CDI.

The dividend will have a record date of August 29, 2023, Australia time, and be payable on September 19, 2023, Australia time. CDIs will be quoted "ex" dividend on September 28, 2023, Australia time. The total ordinary dividend will be funded from available cash.

Capital Requirements

Our main uses of cash have historically been the funding of our operations, working capital, capital expenditure, the payment of interest and dividends. We intend to use cash to fund debt service payments on our Notes, the New ABL Facility and our other indebtedness, to fund operating activities, working capital, capital expenditures, partial redemption of the Notes, business or assets acquisitions and, if declared, payment of dividends.

Historical Cash Flows

The following table summarizes our cash flows for the six months ended June 30, 2023 and 2022, as reported in the accompanying consolidated financial statements:

Cash Flow

| (in US\$ thousands) | Six months ended June 30, | |
|---|---------------------------|------------|
| | 2023 | 2022 |
| Net cash provided by operating activities | \$ 223,874 | \$ 518,292 |
| Net cash used in investing activities | (105,074) | (93,520) |
| Net cash used in financing activities | (9,933) | (355,591) |
| Net change in cash and cash equivalents | 108,867 | 69,181 |
| Effect of exchange rate changes on cash and restricted cash | (9,166) | (21,228) |
| Cash and restricted cash at beginning of period | 334,629 | 437,931 |
| Cash and restricted cash at end of period | \$ 434,330 | \$ 485,884 |

Operating activities

Net cash provided by operating activities was \$223.9 million for the six months ended June 30, 2023, compared to \$518.3 million for the six months ended June 30, 2022. The decrease in cash from operating activities was driven by the lower revenue and higher operating costs.

Investing activities

Net cash used in investing activities was \$105.1 million for the six months ended June 30, 2023, compared to \$93.5 million for the six months ended June 30, 2022. Cash spent on capital expenditures for the six months ended June 30, 2023 was \$104.8 million, of which \$27.4 million related to the Australian Operations and \$77.4 million related to the U.S. Operations.

Financing activities

Net cash used in financing activities was \$9.9 million for the six months ended June 30, 2023, compared to cash used in financing activities of \$355.6 million for the six months ended June 30, 2022. The net cash used in financing activities for the six months ended June 30, 2023 largely related to dividends payment of \$8.4 million and repayment of borrowings and other financial liabilities of \$1.5 million.

Included in net cash used in financing activities for the six months ended June 30, 2022, were dividends paid of \$348.4 million and repayment of borrowings and other financial liabilities of \$7.1 million.

Contractual Obligations

There were no material changes to our contractual obligations from the information previously provided in Item 7. "Management's Discussion and Analysis of Financial Conditions and Results of Operations" of our Annual Report on Form 10-K for the year ended December 31, 2022, filed with the SEC and ASX on February 21, 2023.

Critical Accounting Policies and Estimates

The preparation of our financial statements in conformity with U.S. GAAP requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. On an ongoing basis, we evaluate our estimates. Our estimates are based on historical experience and various other assumptions that we believe are appropriate, the results of which form the basis for making judgements about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates. All of these accounting estimates and assumptions, as well as the resulting impact to our financial statements, have been discussed with the Audit Committee of our Board of Directors.

Our critical accounting policies are discussed in Item 7. "Management's Discussion and Analysis of Financial Condition and Results of Operations" of our Annual Report on Form 10-K for the year ended December 31, 2022, filed with the SEC and ASX on February 21, 2023.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Our activities expose us to a variety of financial risks, such as commodity price risk, interest rate risk, foreign currency risk, liquidity risk and credit risk. The overall risk management objective is to minimize potential adverse effects on our financial performance from those risks which are not coal price related.

We manage financial risk through policies and procedures approved by our Board of Directors. These specify the responsibility of the Board of Directors and management with regard to the management of financial risk. Financial risks are managed centrally by our finance team under the direction of the Group Chief Financial Officer. The finance team manages risk exposures primarily through delegated authority limits approved by the Board of Directors. The finance team regularly monitors our exposure to these financial risks and reports to management and the Board of Directors on a regular basis. Policies are reviewed at least annually and amended where appropriate.

We may use derivative financial instruments such as forward fixed price commodity contracts, interest rate swaps and foreign exchange rate contracts to hedge certain risk exposures. Derivatives for speculative purposes is strictly prohibited by the Treasury Risk Management Policy approved by our Board of Directors. We use different methods to measure the extent to which we are exposed to various financial risks. These methods include sensitivity analysis in the case of interest rates, foreign exchange and other price risks and aging analysis for credit risk.

Commodity Price Risk***Coal Price Risk***

We are exposed to domestic and global coal prices. Our principal philosophy is that our investors would not consider hedging of coal prices to be in the long-term interest of our stockholders. Therefore, any potential hedging of coal prices through long-term fixed price contracts is subject to the approval of our Board of Directors and would only be adopted in exceptional circumstances.

The expectation of future prices for coal depends upon many factors beyond our control. Met coal has been volatile commodity over the past ten years. Recently, in the second quarter of 2022, seaborne prices reached record levels with both the Australian and U.S. Met coal price indices exceeding \$600 per Mt, largely as result of supply concerns in key Met coal markets and continued trade flow disruptions caused by geopolitical tensions following Russian invasion of Ukraine. The demand and supply in the Met coal industry changes from time to time. There are no assurances that oversupply will not occur, that demand will not decrease or that overcapacity will not occur, which could cause declines in the prices of coal, which could have a material adverse effect on our financial condition and results of operations.

Access to international markets may be subject to ongoing interruptions and trade barriers due to policies and tariffs of individual countries. For example, the imposition of tariffs and import quota restrictions by China on U.S. and Australian coal imports, respectively, may in the future have a negative impact on our profitability. We may or may not be able to access alternate markets of our coal should additional interruptions or trade barriers occur in the future. An inability for metallurgical coal suppliers to access international markets, including China, would likely result in an oversupply of Met coal and may result in a decrease in prices and or the curtailment of production.

We manage our commodity price risk for our non-trading, thermal coal sales through the use of long-term coal supply agreements in our U.S. Operations. In Australia, thermal coal is sold to Stanwell on a supply contract. See Item 1A. "Risk Factors—Risks related to the Supply Deed with Stanwell may adversely affect our financial condition and results of operations" in our Annual Report on Form 10-K filed with the SEC and ASX on February 21, 2023.

Sales commitments in the Met coal market are typically not long-term in nature, and we are therefore subject to fluctuations in market pricing. Certain coal sales are provisionally priced initially. Provisionally priced sales are those for which price finalization, referenced to the relevant index, is outstanding at the reporting date. The final sales price is determined within 7 to 90 days after delivery to the customer. As of June 30, 2023, we had \$13.7 million of outstanding provisionally priced receivables subject to changes in the relevant price index. If prices decreased 10%, these provisionally priced receivables would decrease by \$1.4 million. See Item 1A. "Risk Factors—Our profitability depends upon the prices we receive for our coal. Prices for coal are volatile and can fluctuate widely based upon a number of factors beyond our control" in our Annual Report on Form 10-K filed with the SEC and ASX on February 21, 2023.

[Table of Contents](#)
Diesel Fuel

We may be exposed to price risk in relation to other commodities from time to time arising from raw materials used in our operations (such as gas or diesel). These commodities may be hedged through financial instruments if the exposure is considered material and where the exposure cannot be mitigated through fixed price supply agreements.

The fuel required for our operations for the remainder of fiscal year 2023 will be purchased under fixed-price contracts or on a spot basis.

Interest Rate Risk

Interest rate risk is the risk that a change in interest rates on our borrowing facilities will have an adverse impact on our financial performance, investment decisions and stockholder return. Our objectives in managing our exposure to interest rates include minimizing interest costs in the long term, providing a reliable estimate of interest costs for the annual work program and budget and ensuring that changes in interest rates will not have a material impact on our financial performance.

As of June 30, 2023, we had \$253.4 million of fixed rate borrowings and Notes and no variable-rate borrowings outstanding.

We currently do not hedge against interest rate fluctuations.

Foreign Exchange Risk

A significant portion of our sales are denominated in US\$. Foreign exchange risk is the risk that our earnings or cash flows are adversely impacted by movements in exchange rates of currencies that are not in US\$.

Our main exposure is to the A\$-US\$ exchange rate through our Australian Operations, which have predominantly A\$ denominated costs. Greater than 60% of expenses incurred at our Australian Operations are denominated in A\$. Approximately 40% of our Australian Operations' purchases are made with reference to US\$, which provides a natural hedge against foreign exchange movements on these purchases (including fuel, several port handling charges, demurrage, purchased coal and some insurance premiums). Appreciation of the A\$ against US\$ will increase our Australian Operations' US\$ reported cost base and reduce US\$ reported net income. For the portion of US\$ required to purchase A\$ to settle our Australian Operations' operating costs, a 10% increase in the A\$ to US\$ exchange rate would increase reported total costs and expenses by approximately \$26.0 million and \$51.7 million for the three and six months ended June 30, 2023, respectively.

Under normal market conditions, we generally do not consider it necessary to hedge our exposure to this foreign exchange risk. However, there may be specific commercial circumstances, such as the hedging of significant capital expenditure, acquisitions, disposals and other financial transactions, where we may deem foreign exchange hedging as appropriate and where a US\$ contract cannot be negotiated directly with suppliers and other third parties.

For our Australian Operations, we translate all monetary assets and liabilities at the period-end exchange rate, all nonmonetary assets and liabilities at historical rates and revenue and expenses at the average exchange rates in effect during the periods. The net effect of these translation adjustments is shown in the accompanying consolidated financial statements within components of net income.

We currently do not hedge our non-US\$ exposures against exchange rate fluctuations.

Credit Risk

Credit risk is the risk of sustaining a financial loss as a result of a counterparty not meeting its obligations under a financial instrument or customer contract.

We are exposed to credit risk when we have financial derivatives, cash deposits, lines of credit, letters of credit or bank guarantees in place with financial institutions. To mitigate against credit risk from financial counterparties, we have minimum credit rating requirements with financial institutions where we transact.

We are also exposed to counterparty credit risk arising from our operating activities, primarily from trade receivables. Customers who wish to trade on credit terms are subject to credit verification procedures, including an assessment of their independent credit rating, financial position, past experience and industry reputation. We monitor the financial performance of counterparties on a routine basis to ensure credit thresholds are achieved. Where required, we will request additional credit support, such as letters of credit, to mitigate against credit risk. Credit risk is monitored regularly, and performance reports are provided to our management and Board of Directors.

As of June 30, 2023, we had financial assets of \$823.4 million, comprising of cash and restricted cash, trade receivables and restricted deposits, which are exposed to counterparty credit risk. These financial assets have been assessed under ASC 326, *Financial Instruments – Credit Losses*, and a provision for discounting and credit losses of \$1.4 million was recorded as of June 30, 2023.

[Table of Contents](#)**ITEM 4. CONTROLS AND PROCEDURES*****Disclosure Controls and Procedures***

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including the Chief Executive Officer and the Group Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure based solely on the definition of "disclosure controls and procedures" in Rule 13a-15(e) promulgated under the Exchange Act. In designing and evaluating the disclosure controls and procedures, management recognized that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

As of the end of the period covered by this Quarterly Report on Form 10-Q, we carried out an evaluation under the supervision and with the participation of our management, including the Chief Executive Officer and the Group Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures. Based on the foregoing, the Chief Executive Officer and the Group Chief Financial Officer concluded that our disclosure controls and procedures were effective.

Changes to Internal Control over Financial Reporting

During the fiscal quarter covered by this Quarterly Report on Form 10-Q, there were no changes in the Company's internal control over financial reporting, as such term is defined in Rule 13a-15(f) of the Exchange Act, that materially affected, or are reasonably likely to materially affect, the Company's internal controls over financial reporting.

ITEM 4. MINE SAFETY DISCLOSURES

Safety is the cornerstone of the Company's values and is the number one priority for all employees at Coronado Global Resources Inc.

Our U.S. Operations include multiple mining complexes across three states and are regulated by both the U.S. Mine Safety and Health Administration, or MSHA, and state regulatory agencies. Under regulations mandated by the Federal Mine Safety and Health Act of 1977, or the Mine Act, MSHA inspects our U.S. mines on a regular basis and issues various citations and orders when it believes a violation has occurred under the Mine Act.

In accordance with Section 1503(a) of the Dodd-Frank Wall Street Reform and Consumer Protection Act and Item 104 of Regulation S-K (17 CFR 229.104), each operator of a coal or other mine in the United States is required to report certain mine safety results in its periodic reports filed with the SEC under the Exchange Act.

Information pertaining to mine safety matters is included in Exhibit 95.1 attached to this Quarterly Report on Form 10-Q. The disclosures reflect the United States mining operations only, as these requirements do not apply to our mines operated outside the United States.

ITEM 5. OTHER INFORMATION

During the quarter ended June 30, 2023, no director or officer (as defined in Rule 16a-1(f) promulgated under the Exchange Act) of the Company adopted or terminated a "Rule 10b5-1 trading arrangement" or "non-Rule 10b51- trading arrangement" (as each term is defined in Item 408 of Regulation S-K).
